PROFESSIONAL SUMMARY

Motivated fourth-year Computer Science student at Jimma University (JiT) with practical experience in software development, full-stack web applications, and database management. Skilled in Python, Java, PHP, JavaScript, React, MySQL, Git, and GitHub. Passionate about engineering high-impact software solutions and solving real-world challenges through technology and modern architectures.

EDUCATION

Jimma University - Jimma Institute of Technology (JiT) Expected Graduation: 2027/2028
B.Sc. in Computer Science (4th Year) Jimma, Ethiopia
Relevant Courses: Data Structures & Algorithms, Database Systems, Software Engineering, Computer Networks, Operating Systems, Artificial Intelligence, Machine Learning, Web Programming

EXPERIENCE & PRACTICAL TRAINING

Dangote Cement Ethiopia Muger, Ethiopia
Network Infrastructure & IT Support Intern

- Supported enterprise LAN/WAN infrastructure and configured structured cabling and network switches.
- Diagnosed and resolved hardware, operating system, and network connectivity issues for plant staff.
- Monitored industrial switch/router status and followed enterprise IT operational guidelines.

KEY SOFTWARE PROJECTS

Food Delivery & Ordering System [PHP, MySQL, HTML5, CSS3, JavaScript]

- Developed responsive web-based food ordering platform with authentication and session handling.
- Architected normalized MySQL database for real-time order tracking, menu items, and carts.
- Built administrative management portal for order fulfillment, revenue, and delivery updates.

Cooperative Store Management System [PHP, React, MySQL, CSS3, JavaScript]

- Built member registration, sales tracking, and transaction record management modules.
- Generated automated reporting and business analytics dashboard for administrative oversight.

Student Registration & Records System [PHP, MySQL, HTML, CSS]

- Created student enrollment, course registration, and academic record/grade management modules.
- Implemented optimized SQL queries for high-speed student academic record retrieval.

TECHNICAL SKILLS

Programming:	Python, Java, PHP, JavaScript (ES6+), SQL, HTML5, CSS3
Frameworks & Web:	React, Tailwind CSS, Bootstrap, PHP MVC Architecture
Databases & Tools:	MySQL, Git, GitHub, XAMPP, VS Code, Windows/Linux CLI
Soft Skills:	Problem Solving, Teamwork, Critical Thinking, Time Management, Adaptability

CERTIFICATIONS & TRAINING

* Introduction to Cybersecurity * HTML Essential Certificate * Ethiocoder Web Programming
